

cross reference to military and ms numbers MIL-L-3661B

Rev F dated 26 May 1969 inactivated MS25256
 Rev G dated 4 June 1970 inactivated MS25257
 Rev C dated 20 July 1970 inactivated MS25446
 Rev E dated 5 February 1971 inactivated MS25010

These drawings, with the exception of Type A and B Mounting Base to MS25010, have been superseded by the Military Type Designations and Dialight Catalog Numbers listed in the tables below. To facilitate future procurement for replacement purposes and due to the popularity of the MS assemblies we have continued to list them for your convenience.

* Under the old MS number the complete assembly had to be ordered and the MS part number marked on the base is the one applicable to the complete assembly less lamp.

The new MIL-L-3661 number permits the ordering of the complete assemblies or separate lampholder and lens cap.

** The Military Type designation marked on the assembly is the part number for the lampholder only (less lens cap).

+ Lamps must be ordered separately.
