

## Laird Thermal Systems Thermoelectric Cooler Assemblies

Laird Thermal Systems offers the industry's widest selection of thermoelectric cooler assemblies. Cooling well below ambient, these thermoelectric cooler assemblies protect electronics inside enclosures from outside contaminants, and also limit moisture exposure from the outside environment. Offering precise temperature control, Laird Thermal Systems' thermoelectric cooler assemblies are designed to meet the cooling needs of many thermal management applications in the medical, analytical, industrial and telecom markets.

## Features

- Compact size
- Lower weight
- Lower noise and vibration
- Mounts in any orientation
- Environmentally friendly, as thermoelectric cooler assemblies do not use CFCs and are RoHS compliant
- Little to no in-field maintenance
- Lower total cost of ownership
